

I Hope that you do not in any way weaken the Indiana Telephone Privacy law (no call list)! Before this was put in effect I was getting between 9 & over 20 unwanted calls per DAY! Now I seldom get over 2 per day and most days none.

If anything I would encourage you to make the Federal law more restrictive. I would also like to see these callers be required to not block Caller ID as that is my final form of screening.

Before the no call list in IN. I did not answer any calls that did not show the callers name or number. I am sure this caused some calls to be missed that were wanted.

These unsolicited calls turn a necessary tool into a unwanted nusiance. Again I urge you DO NOT WEAKEN INDIANA'S NO CALL law.
